

**BIOMETA
POLYPACK**
Sustainable Solutions

**Compostable.
Sustainable.
Responsible.**

From retail to agriculture,
Biometa provides eco-friendly
alternatives that replace plastic
and protect tomorrow.

Biometa Polypack is a CPCB-approved manufacturer of 100% compostable bags and outer packaging. From grocery and garbage bags to protective outer wraps for electronics and appliances, we deliver sustainable alternatives to plastic and paper packaging.

Our mission is to provide solutions that are scalable, affordable, and eco-friendly without compromising quality.

VISION

To grow the world into a greener place by replacing plastic and paper with certified compostable alternatives.

MISSION

To make sustainable packaging affordable, reliable, and scalable. We help businesses reduce plastic waste at scale while maintaining cost and performance.

CPCB

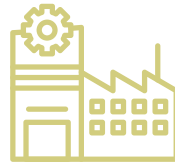

All products are manufactured using CPCB-approved compostable materials and comply with PWM Rules (2016 & amendments).

Why Biometa

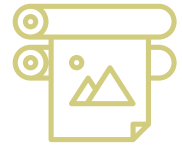

100% Compostable & CPCB Approved

No PE, no conventional plastic - fully biodegradable solutions.

Virgin Resin Quality

High strength, consistent thickness, and superior printability.

Fully Customisable

GSM, width, color, embossing, and printing tailored to each customer.

B2B Bulk Supply

Jumbo rolls for converters, ready-made bags for retail/municipal clients.

Planet-Positive

Reduces plastic pollution and meets India's PWM 2022 norms.

Why Compostable Plastic?

Conventional plastics take centuries to decompose, causing pollution and microplastics. Compostable plastics are made from renewable raw materials like corn starch and decompose naturally.

Environmental Benefits

Reduces pollution, no microplastics

Lower carbon footprint, plant-based materials

Converts into nutrient-rich compost, improving soil health

Complies with government bans on single-use plastics

Aligns with ESG and sustainability goals

Services

Custom bag design & branding (multi-color printing)

Bring your brand to life with tailor-made bag designs. Choose from eco-friendly materials that match your values. Vibrant multi-color printing ensures your brand stands out.

Bulk manufacturing & supply chain solutions

Reliable large-scale production to meet your business needs. Streamlined supply chain for timely and consistent delivery. Quality and sustainability at every stage of the process.

Product development & optimization support

Transform ideas into innovative packaging solutions. Our team supports you at every stage of product development. Optimized designs ensure efficiency, sustainability, and impact.

Compliance documentation (CPCB test reports & certificates)

Ensure your packaging meets every regulatory standard. We provide our test reports as per the requirement. Build trust with eco-conscious, legally verified solutions.

Pan-India logistics and delivery

Seamless logistics to keep your business moving. We deliver across India with speed and reliability. Trusted supply networks ensure products reach you on time.

Sectors We Serve

Retail + Quick Commerce

Electronics & Appliances

Agriculture & Nurseries

Hospitality & Food Services

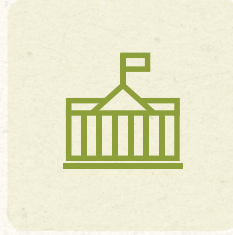

Aviation & Travel
(Duty-Free & Airport Facilities)

Personal Hygiene,
Health Care &
Pharma

Corporate & Commercial
Facilities

Government & Municipalities

Automotive & Metal Parts

R&D & Materials

Raw materials: corn starch, PLA, PBAT, and other certified compostables

Our R&D team focuses on developing sustainable alternatives to plastic. We work with certified compostable materials like corn starch, PLA, and PBAT. Every product is designed for strength, durability, and eco-responsibility.

Continuous R&D to improve strength, durability, printability, and eco-performance

Through continuous R&D, we enhance every aspect of our products. Strength, durability, and printability are optimized for business needs. All while ensuring superior eco-performance and sustainability.

CPCB compliance across all batches

Every batch we manufacture is CPCB-compliant. Strict testing ensures consistency and reliability. Your assurance of certified, eco-friendly packaging—every time.

Products

Compostable Grocery/Carry Bags

Supermarkets & Retail Chains

Quick Commerce Platforms

Restaurant & Takeaways

Features:

- CPCB-certified, leak-proof, and durable
- Available in D-cut, U-cut & Flat top styles
- 100% customizable — size, micron, and printing

CPCB-approved

Compostable Produce / Vegetable / Fruit Bags

Grocery Chains

Farm Vendors

Fruit/Vegetable Wholesaler

Features:

- BPA-free, food-safe, breathable
- Keeps produce fresh
- Supplied in pieces (not rolls)

CPCB-approved

Compostable Hot Liquid Bags

Cloud Kitchens & Takeaways

Catering Services

Restaurants

Features:

- Heat-tolerant, leak-proof
- Food-grade certified
- Customizable size & micron

CPCB-approved

Compostable Garbage / Trash / Liner Bags

Hotels & Resorts

Airlines

Corporates & Societies

Features:

- Available in flat-top & handle styles
- Leak-proof & tear-resistant
- Multiple color options for segregation

CPCB-approved

Medical Autoclave / Biomedical Waste Bags

Hospitals & Clinics

Diagnostic Labs

Healthcare Waste Collectors

Features:

- Leak-proof and color-coded
- Biohazard symbol printed
- Customizable size & micron

CPCB-approved

Compostable Printed Shopping Bags

Fashion & Lifestyle Retail

Airport Duty-Free

Electronics & FMCG

F&B Retail

Features:

- Premium finish, D-cut & U-cut styles
- High load-bearing capacity
- Fully customizable — size, micron, printing, and color

CPCB-approved

Laundry Bags

Hotels & Resorts

Industrial Laundries

Hospitals & Nursing Homes

Features:

- Leak-proof, hygienic, single-use
- Customizable size and print
- Suitable for hotels and hospitals

CPCB-approved

Dryclean Bag

Dry-Clean Services

Hotels & Hospitality

Apparel

Features:

- Transparent, strong, compostable
- Customizable branding and sizes

CPCB-approved

Dust Covers Protective / Sleeves

Electronics & Appliance OEMs

Retail Packaging

FMCG

F&B Retail

Features:

- Durable and customizable
- Protection against dust, moisture, and scratches

CPCB-approved

Nursery Bags

Nurseries & Garden Centers

Landscaping Companies

Reforestation Projects

Features:

- Perforated for aeration and drainage
- Biodegradable and available in multiple sizes

CPCB-approved

Bread Bag

Bakeries & Confectionery

Features:

- Clear, compostable, anti-fog film
- Food-grade and moisture controlled
- Customizable for bakery branding

CPCB-approved

Compostable Outer Packaging Films

E-commerce & Fulfilment

Electronics and more

FMCG

Features:

- Strong, dust and moisture resistant
- Printable for branding
- Supplied in rolls

CPCB-approved

Compostable VCI Films & Bags

Automotive

Engineering

Metal Parts

Export Packaging

Features:

Compostable volatile corrosion inhibitor films and bags, protecting metal parts from rust while staying eco-friendly and fully biodegradable

CPCB-approved

Compostable Specialty Films

Hygiene & Personal Care

Medical & Pharma

Food & FMCG

Retail & E-Commerce

Industrial Packaging

Features:

- High-quality Compostable blends
- Fully Customisable

CPCB-approved

Compostable Anti-Static Films & Bags

Electronics

Semiconductors

IT & Telecom Hardware

Pharmaceuticals

Food Processing & Packaging

Features:

- High-quality Compostable blends
- Fully Customisable

CPCB-approved

Compostable Mulch Films

Agriculture and Farming

Features:

- High-quality Compostable blends
- Fully Customisable

CPCB-approved

What We Do for the Environment

1. We replace harmful plastics with certified compostable solutions.
2. Our products decompose naturally, leaving no toxic residue.
3. Every bag helps reduce pollution and protect our ecosystems.

Every bag makes a difference. With Biometa, your choice today shapes a **cleaner,** safer, and more sustainable future.
